

After a Final Conversion Checklist

Use this checklist as a guide to help you complete setup and cleanup steps after a final conversion. For help addressing HIPAA security requirements, see [Security Issues](#).

✓ CHECK BEGINNING ACCOUNT BALANCE	
Compare A/R balance in Open Dental with A/R balance in old software	<p>Verify that the beginning total account balance in Open Dental is correct.</p> <ul style="list-style-type: none"> From your old software: Use the accounts receivable report, with credit balances included, run on the day of conversion. In Open Dental: Run the Aging of A/R report, include negative balances. If payment plans were converted, also run the Payment Plan report (don't limit by date range), then combine reports to get the total beginning account balance. <p>Compare the total account balance in each report. They should match. Keep a copy reports for your records.</p>
✓ GENERAL SETUP	
Show Features	Turn on features (e.g. Clinics, Medical, EHR).
Program Bridges	On each workstation, verify that bridges work (e.g. to digital imaging software).
Clinic Setup	If using clinics, verify names, addresses, default providers, etc.
Practice Setup	Verify practice name, address, default provider, etc.
Provider List	Verify provider names, IDs, appointment colors, default fee schedules. Move or reassign patients if needed.
Employee List	Verify employee names; add new or hide past employees.
Operatory Setup	Check the setup of operatories (assign dentists, hygienists, clinics).
Schedule Setup	Set up provider schedules. Affects open/close times in the Appointment schedule.
Appointment Views	Set up views in the appointment schedule for different situations (e.g. HIPAA view). Choose operatories, set where and what information shows.
Procedure Code List	Verify each fee schedule and its fees. Make sure hygiene procedure codes are marked as "Is Hygiene Procedure". Add alternate codes, substitution codes, or non-standard codes (e.g. for merchandise).
Recall Types	Verify default recall types. (Advanced)
Recall List Defaults	Set defaults for the recall list.

✓ CLEANUP	
Queries referred to below are saved in your Query Favorites	
Perio vs Prophyl	Use the Conv-Perio Patients query to see which patients are set as Perio. Change as needed.
Verify Patient Insurance	Verify patient insurance benefits using the Insurance Verification List. We recommend working on patients with upcoming appointments first.

✓ CLEANUP CONT.		
Clean up Overlapping Appointments	Run the Conv-Future Apts by Operatory query to find patients in an 'Unassigned or 'Extra' operatory. Move those patients to the correct operatory then hide the unassigned/extra operatory.	
Verify providers on future hygiene Appointments	Future hygiene appointments sometimes have hygienist assigned as the primary provider. Once providers and operatories are set up, make sure the correct dentist and hygienist are assigned. For each operatory: <ol style="list-style-type: none"> 1. Right click on the operatory. 2. Click Update Provs on Future Appts 	
Future Appointments	Check future appointments and ensure the correct treatment planned procedures are attached.	
How to Handle Claims	Create outstanding claims that were not converted (use the outstanding insurance report from your old software).	
Billing	Follow your plan for billing. Option 1: If you are incrementally verifying insurance and creating claims, only send statements to families who have claims entered. Option 2: Once all insurance is verified and all claims are entered, run a Billing List to generate statements.	
Duplicate Patients	Run the Conv-Possible Duplicate Patients query to identify duplicate patients, then merge them.	
Unassigned Clinics	If using clinics, run the Conv-Patients in Unassigned Clinic query to find patients with no default clinic and assign one to them.	
Income Transfers	As payments are made and balances change, run the query Conv-Accounts Needing a Non-Income Transfer to determine which family balances equal 0, then clean up income transfers.	
✓ OTHER RECOMMENDED SETUP		
Procedure Buttons	Set up buttons that allow quick entry of commonly used procedures.	
Procedure Code List	Enter default notes that automatically copy to treatment planned or completed procedures.	
Auto Codes	Verify automated codes that validate procedure codes. (Advanced)	
Auto Notes	Create templates for complex notes entered frequently (e.g. exams, root canals).	
Employer List	Review employers, remove duplicates, add new.	
Insurance Carrier List	Review insurance carrier information, remove or combine duplicates, add new.	
Insurance Plan List	Review insurance plans, remove or combine duplicates, add new.
