<p>Family information</p> <ul style="list-style-type: none"> • Patient info (name, contact info, age, status, gender, SSN, provider, etc.) • Patient insurance plans • Benefits (most) • Referrals • Recall (auto-generated) • Sticker notes <p>Appointment information</p> <ul style="list-style-type: none"> • Appointments • Operatories • Blockouts 	<p>Chart information</p> <ul style="list-style-type: none"> • Charting (some) • Procedures (most) • Procedure notes • Perio chart • Missing teeth • Prescriptions (version 7 only) • Disease / condition list • Disease to patient association 	<p>Account information</p> <ul style="list-style-type: none"> • Beginning balances • Payments • Adjustments <p>Other</p> <ul style="list-style-type: none"> • Providers • Employees • Employers • Fee schedules • Insurance carriers • Insurance plans • Lab cases / Laboratories • Pharmacies (version 7 only)
--	--	--

What is NOT converted?

- * **We do not convert x-rays.** You need to identify a new x-ray solution. A good option is a bridge to Kodak (Trophy Enhanced) in numbered mode. For a list of digital imaging programs we bridge to, see [Program Bridges](#).
- * **We do not convert claims or preauthorizations.** You must manually enter outstanding claims prior to billing in Open Dental.
- * **Missing transactions:** There will likely be missing transactions because of the way PracticeWorks stores data in a deprecated file structure. This is unavoidable. When a patient has missing transactions, we will set a beginning balance.
- * **We do not convert forms, autonotes, treatment plans, custom recall intervals, or medications.**
